

120 Javnih REST API endpointa

Interoperabilnost informacijskih sustava — Projektni zadaci 2025./2026.

Svi endpointi podržavaju HTTP metode: GET · POST · PUT · DELETE

Uputa za studente

Svaki projekt mora implementirati sve četiri HTTP metode za odabrani endpoint:

GET — dohvati podatke | **POST** — kreiraj novi resurs | **PUT** — ažuriraj postojeći resurs | **DELETE** — obriši resurs

Napomena: Kod nekih naprednih API-ja (Notion, HubSpot, GitHub) koristi se PATCH umjesto PUT za djelomično ažuriranje — to je prihvatljivo za projektni zadatak. Kod placeholder vrijednosti u URL-ovima ({project-id}, {baseId} itd.) student/ica treba zamijeniti stvarnim vrijednostima iz vlastite instancu/računa.

1. Swagger Petstore OAS 2.0

Autentifikacija: Bez autentifikacije — api_key: 'special-key' za neke operacije

#	Tema / Endpoint	URL
1	Upravljanje ljubimcima	https://petstore.swagger.io/v2/pet
2	Narudžbe u prodavaonici	https://petstore.swagger.io/v2/store/order
3	Korisnici (Petstore v2)	https://petstore.swagger.io/v2/user
4	Pretraga ljubimaca po tagovima	https://petstore.swagger.io/v2/pet/findByTags

2. Swagger Petstore OAS 3.0

Autentifikacija: Bez autentifikacije — OpenAPI 3.0 standard

#	Tema / Endpoint	URL
5	Ljubimci (OpenAPI 3.0)	https://petstore3.swagger.io/api/v3/pet
6	Narudžbe (OpenAPI 3.0)	https://petstore3.swagger.io/api/v3/store/order
7	Korisnici (OpenAPI 3.0)	https://petstore3.swagger.io/api/v3/user
8	Inventar prodavaonice	https://petstore3.swagger.io/api/v3/store/inventory

3. FakeRESTAPI (Azure)

Autentifikacija: Bez autentifikacije — simulator, GET/POST/PUT/DELETE validira parametre

#	Tema / Endpoint	URL
9	Knjige	https://fakerestapi.azurewebsites.net/api/v1/Books
10	Autori	https://fakerestapi.azurewebsites.net/api/v1/Authors
11	Aktivnosti	https://fakerestapi.azurewebsites.net/api/v1/Activities
12	Korisnici (FakeRESTAPI)	https://fakerestapi.azurewebsites.net/api/v1/Users

4. WordPress REST API

Autentifikacija: *Application Password ili Basic Auth* — koristiti demo.wp-api.org

#	Tema / Endpoint	URL
13	WordPress objave (Posts)	https://demo.wp-api.org/wp-json/wp/v2/posts
14	WordPress stranice (Pages)	https://demo.wp-api.org/wp-json/wp/v2/pages
15	WordPress kategorije	https://demo.wp-api.org/wp-json/wp/v2/categories
16	WordPress komentari	https://demo.wp-api.org/wp-json/wp/v2/comments

5. Trello REST API

Autentifikacija: *API ključ + token (besplatni račun)* — developer.atlassian.com/cloud/trello

#	Tema / Endpoint	URL
17	Ploče (Boards)	https://api.trello.com/1/boards
18	Kartice (Cards)	https://api.trello.com/1/cards
19	Liste (Lists)	https://api.trello.com/1/lists
20	Kontrolne liste (Checklists)	https://api.trello.com/1/checklists

6. MockAPI.io

Autentifikacija: *Besplatni račun* — kreirati projekt na mockapi.io, zamijeni {id} s project ID-om

#	Tema / Endpoint	URL
21	Prilagođeni korisnici	https://{project-id}.mockapi.io/api/v1/users
22	Prilagođeni proizvodi	https://{project-id}.mockapi.io/api/v1/products
23	Prilagođeni zadaci	https://{project-id}.mockapi.io/api/v1/tasks
24	Prilagođene narudžbe	https://{project-id}.mockapi.io/api/v1/orders

7. GitHub REST API v3

Autentifikacija: *Personal Access Token (PAT) u Authorization zaglavlju* — github.com/settings/tokens

#	Tema / Endpoint	URL
25	GitHub Gists (isječci koda)	https://api.github.com/gists
26	Issues repozitorija	https://api.github.com/repos/{owner}/{repo}/issues
27	Oznake (Labels)	https://api.github.com/repos/{owner}/{repo}/labels
28	Milepokazi (Milestones)	https://api.github.com/repos/{owner}/{repo}/milestones

8. GitLab REST API v4

Autentifikacija: *Private-Token zaglavlje* — gitlab.com/profile/personal_access_tokens

#	Tema / Endpoint	URL
29	GitLab projekti	https://gitlab.com/api/v4/projects
30	GitLab issues	https://gitlab.com/api/v4/projects/{id}/issues
31	Napomene uz issue	https://gitlab.com/api/v4/projects/{id}/issues/{issue_id}/notes
32	GitLab oznake	https://gitlab.com/api/v4/projects/{id}/labels

9. Airtable REST API

Autentifikacija: *Bearer token (API ključ)* — airtable.com/account, zamijeni {baseId} i {tableName}

#	Tema / Endpoint	URL
33	Zapisi tablice Contacts	https://api.airtable.com/v0/{baseId}/Contacts
34	Zapisi tablice Projects	https://api.airtable.com/v0/{baseId}/Projects
35	Zapisi tablice Tasks	https://api.airtable.com/v0/{baseId}/Tasks
36	Zapisi tablice Products	https://api.airtable.com/v0/{baseId}/Products

10. Clockify REST API

Autentifikacija: *X-API-Key zaglavlje* — clockify.me/apikey (besplatni račun)

#	Tema / Endpoint	URL
37	Projekti radnog prostora	https://api.clockify.me/api/v1/workspaces/{workspaceId}/projects
38	Klijenti radnog prostora	https://api.clockify.me/api/v1/workspaces/{workspaceId}/clients

39	Oznake radnog prostora	https://api.clockify.me/api/v1/workspaces/{workspaceId}/tags
40	Vremenski unosi	https://api.clockify.me/api/v1/workspaces/{workspaceId}/time-entries

11. Typeform API

Autentifikacija: Bearer token — developer.typeform.com (besplatni račun daje API pristup)

#	Tema / Endpoint	URL
41	Obrasci (Forms)	https://api.typeform.com/forms
42	Radni prostori (Workspaces)	https://api.typeform.com/workspaces
43	Teme obrazaca (Themes)	https://api.typeform.com/themes
44	Slike za obrasce	https://api.typeform.com/images

12. Imgur REST API

Autentifikacija: Client-ID za anonimni pristup ili OAuth2 za korisnički sadržaj — api.imgur.com

#	Tema / Endpoint	URL
45	Albumi slika	https://api.imgur.com/3/album
46	Slike (Images)	https://api.imgur.com/3/image
47	Komentari slika	https://api.imgur.com/3/comment
48	Galerijski unosi	https://api.imgur.com/3/gallery

13. Contentful Management API

Autentifikacija: CMA token — app.contentful.com/account/profile/cma_tokens

#	Tema / Endpoint	URL
49	Unosi sadržaja (Entries)	https://api.contentful.com/spaces/{spaceId}/entries
50	Resursi (Assets)	https://api.contentful.com/spaces/{spaceId}/assets
51	Tipovi sadržaja (Content Types)	https://api.contentful.com/spaces/{spaceId}/content_types
52	Okruženja (Environments)	https://api.contentful.com/spaces/{spaceId}/environments

14. Directus Cloud API

Autentifikacija: JWT Bearer token ili statički access token — directus.io (besplatni tier dostupan)

#	Tema / Endpoint	URL
53	Stavke prilagođene kolekcije	https://{project}.directus.app/items/{collection}

54	Korisnici (Directus)	https://{project}.directus.app/users
55	Datoteke (Files)	https://{project}.directus.app/files
56	Uloge i dozvole (Roles)	https://{project}.directus.app/roles

15. Strapi REST API

Autentifikacija: *JWT Bearer token* — *strapiapp.com* ili *self-hosted* instanca (lokalni razvoj)

#	Tema / Endpoint	URL
57	Restoran entiteti	https://{instance}/api/restaurants
58	Kategorije entiteta	https://{instance}/api/categories
59	Recenzije	https://{instance}/api/reviews
60	Članci (Articles)	https://{instance}/api/articles

16. PocketBase REST API

Autentifikacija: *JWT token* iz */api/admins/auth-with-password* — *pocketbase.io* (*self-hosted* ili *besplatni sandbox*)

#	Tema / Endpoint	URL
61	Zapisi prilagođene kolekcije	https://{instance}/api/collections/{collection}/records
62	Korisnički zapisi	https://{instance}/api/collections/users/records
63	Admin upravljanje	https://{instance}/api/admins
64	Meta kolekcija	https://{instance}/api/collections

17. Asana REST API

Autentifikacija: *Personal Access Token* — *app.asana.com/0/developer-console*

#	Tema / Endpoint	URL
65	Zadaci (Tasks)	https://app.asana.com/api/1.0/tasks
66	Projekti (Projects)	https://app.asana.com/api/1.0/projects
67	Odjeljci (Sections)	https://app.asana.com/api/1.0/sections
68	Oznake (Tags)	https://app.asana.com/api/1.0/tags

18. ClickUp REST API v2

Autentifikacija: *Authorization token* — *app.clickup.com/settings/apps* (*besplatni plan dostupan*)

#	Tema / Endpoint	URL
---	-----------------	-----

69	Zadaci liste (Tasks)	https://api.clickup.com/api/v2/list/{listId}/task
70	Popisi (Lists)	https://api.clickup.com/api/v2/space/{spaceId}/list
71	Komentari zadatka	https://api.clickup.com/api/v2/task/{taskId}/comment
72	Oznake prostora (Tags)	https://api.clickup.com/api/v2/space/{spaceId}/tag

19. Jira REST API v3 (Atlassian)

Autentifikacija: *Basic Auth (email + API token)* — id.atlassian.com/manage-profile/security/api-tokens

#	Tema / Endpoint	URL
73	Zadaci (Issues)	https://{domain}.atlassian.net/rest/api/3/issue
74	Jira projekti	https://{domain}.atlassian.net/rest/api/3/project
75	Verzije projekta (Versions)	https://{domain}.atlassian.net/rest/api/3/project/{projectKey}/versions
76	Komponente projekta	https://{domain}.atlassian.net/rest/api/3/project/{projectKey}/components

20. Zendesk Support API

Autentifikacija: *Basic Auth (email/token) ili API token* — {subdomain}.zendesk.com (trial dostupan)

#	Tema / Endpoint	URL
77	Tiketi korisničke podrške	https://{subdomain}.zendesk.com/api/v2/tickets
78	Korisnici Zendesk	https://{subdomain}.zendesk.com/api/v2/users
79	Organizacije (Organizations)	https://{subdomain}.zendesk.com/api/v2/organizations
80	Grupe agenata	https://{subdomain}.zendesk.com/api/v2/groups

21. Firebase Realtime Database REST

Autentifikacija: *Database URL + ?auth=TOKEN* — console.firebase.google.com (besplatni Spark plan)

#	Tema / Endpoint	URL
81	Korisničke podatke u čvorištu	https://{project}.firebaseio.com/users.json
82	Podaci o proizvodima	https://{project}.firebaseio.com/products.json

83	Narudžbe u realnom vremenu	https://{project}.firebaseio.com/orders.json
84	Kategorije podataka	https://{project}.firebaseio.com/categories.json

22. Supabase REST API (PostgREST)

Autentifikacija: *apikey zaglavlje (anon key) + Bearer token za auth* — *app.supabase.com (besplatni plan)*

#	Tema / Endpoint	URL
85	Supabase tablica korisnika	https://{project}.supabase.co/rest/v1/users
86	Supabase tablica proizvoda	https://{project}.supabase.co/rest/v1/products
87	Supabase tablica narudžbi	https://{project}.supabase.co/rest/v1/orders
88	Supabase tablica kategorija	https://{project}.supabase.co/rest/v1/categories

23. Spotify Web API

Autentifikacija: *OAuth 2.0 Bearer token* — *developer.spotify.com (besplatni developer plan)*

#	Tema / Endpoint	URL
89	Korisnički playlistovi	https://api.spotify.com/v1/me/playlists
90	Stavke playliste	https://api.spotify.com/v1/playlists/{playlist_id}/tracks
91	Omiljene pjesme korisnika	https://api.spotify.com/v1/me/tracks
92	Praćeni albumi korisnika	https://api.spotify.com/v1/me/albums

24. Shopify Admin API

Autentifikacija: *Admin API access token ili Basic Auth (key:password)* — *partners.shopify.com*

#	Tema / Endpoint	URL
93	Shopify proizvodi	https://{shop}.myshopify.com/admin/api/2024-01/products.json
94	Shopify narudžbe	https://{shop}.myshopify.com/admin/api/2024-01/orders.json
95	Shopify kupci	https://{shop}.myshopify.com/admin/api/2024-01/customers.json
96	Shopify kolekcije	https://{shop}.myshopify.com/admin/api/2024-01/custom_collections.json

25. WooCommerce REST API

Autentifikacija: *Consumer Key + Consumer Secret (Basic Auth)* — WordPress > WooCommerce > Settings > Advanced > REST API

#	Tema / Endpoint	URL
97	WooCommerce proizvodi	https://{store}/wp-json/wc/v3/products
98	WooCommerce kategorije	https://{store}/wp-json/wc/v3/products/categories
99	WooCommerce narudžbe	https://{store}/wp-json/wc/v3/orders
100	WooCommerce kupci	https://{store}/wp-json/wc/v3/customers

26. HubSpot CRM API v3

Autentifikacija: *Bearer token (Private App)* — app.hubspot.com (besplatni CRM plan + developer sandbox)

#	Tema / Endpoint	URL
101	CRM kontakti	https://api.hubapi.com/crm/v3/objects/contacts
102	CRM tvrtke (Companies)	https://api.hubapi.com/crm/v3/objects/companies
103	CRM poslovi (Deals)	https://api.hubapi.com/crm/v3/objects/deals
104	CRM tiketi (Tickets)	https://api.hubapi.com/crm/v3/objects/tickets

27. Stripe REST API

Autentifikacija: *Secret Key u Authorization zaglavlju* — dashboard.stripe.com/apikeys (test modus besplatan)

#	Tema / Endpoint	URL
105	Stripe kupci (Customers)	https://api.stripe.com/v1/customers
106	Stripe proizvodi (Products)	https://api.stripe.com/v1/products
107	Cijene proizvoda (Prices)	https://api.stripe.com/v1/prices
108	Promotivni kuponi (Coupons)	https://api.stripe.com/v1/coupons

28. Notion API

Autentifikacija: *Bearer token (Integration)* — notion.so/profile/integrations (napomena: PATCH umjesto PUT)

#	Tema / Endpoint	URL
109	Notion stranice (Pages)	https://api.notion.com/v1/pages
110	Notion baze podataka	https://api.notion.com/v1/databases
111	Blokovi sadržaja (Blocks)	https://api.notion.com/v1/blocks/{block_id}/children

112	Pretraživanje sadržaja	https://api.notion.com/v1/search
-----	------------------------	---

29. Okta REST API

Autentifikacija: SSWS API token u Authorization zaglavlju — developer.okta.com (besplatni developer plan)

#	Tema / Endpoint	URL
113	Okta korisnici (Users)	https://{domain}.okta.com/api/v1/users
114	Okta grupe (Groups)	https://{domain}.okta.com/api/v1/groups
115	Okta aplikacije (Apps)	https://{domain}.okta.com/api/v1/apps
116	Politike (Policies)	https://{domain}.okta.com/api/v1/policies

30. Postman API

Autentifikacija: X-API-Key zaglavlje — go.postman.com/integrations/api-keys (besplatni račun)

#	Tema / Endpoint	URL
117	Postman radni prostori (Workspaces)	https://api.getpostman.com/workspaces
118	Postman kolekcije (Collections)	https://api.getpostman.com/collections
119	Postman okruženja (Environments)	https://api.getpostman.com/environments
120	Postman monitore (Monitors)	https://api.getpostman.com/monitors

Brzi pregled HTTP metoda za REST CRUD operacije

HTTP Metoda	CRUD Operacija	Primjer endpoint	Status kod	Idempotentnost
GET	Read (čitanje)	GET /api/v1/products	200 OK	Da
POST	Create (kreiranje)	POST /api/v1/products	201 Created	Ne
PUT	Update (ažuriranje)	PUT /api/v1/products/{id}	200 OK	Da
DELETE	Delete (brisanje)	DELETE /api/v1/products/{id}	204 No Content	Da
